

Brain Research Institute/Florey Neuroscience Institutes

Research projects undertaken at the Brain Research Institute (BRI) include development of image acquisition and analysis techniques and/or their application to clinical neurosciences. BRI has an active program of clinical research in the neurosciences using MRI to investigate brain function and structure. The institute has a state-of-the-art 3 tesla, MRI facility 100% dedicated to research of the human brain.

A limited number of top-up scholarships are on offer on a competitive basis to suitable candidates. See our website for projects currently available.

Applications should include: curriculum vitae, up-to-date academic transcripts, expression of interest for area of research and details of two academic referees. Successful applicants will be required to perform the majority of their degree research work at the BRI.

APPLICATIONS ARE WELCOME AT ANY TIME.

Reference Number: 1746

Study Subject: Engineering and Technology, Computer Science, Physical Sciences, Medical and Health Sciences, Neurosciences

Web Address: <http://www.brain.org.au>

Provided By: Brain Research Institute

To be undertaken at: The University of Melbourne.

Level: Post Graduate (Research)

Availability

This scholarship is offered annually to an unspecified number of people. Applications are welcome at any time.

Payment Information

The value of this scholarship is unspecified (total may vary). This award is to be used for living expenses. This scholarship is paid fortnightly for the period of 3 years.

Research Information

This scholarship is for one of the following fields of research: Engineering and Technology, Computer Science, Physical

Sciences, Medical and Health Sciences, Neurosciences

Eligibility This scholarship is for study at the Brain Research Institute in Australia.

Application Details

To apply for this scholarship you must apply directly to the scholarship provider. Terms and conditions are subject to change. Always confirm details with scholarship provider before applying.
