

THE UNIVERSITY OF
WESTERN AUSTRALIA
Achieving International Excellence

Interested in doing a PhD?

Join the **SOIL BIOLOGY GROUP** in the **SCHOOL OF EARTH AND GEOGRAPHICAL SCIENCES** at **UWA**.

We are a multi-disciplinary research team. We work with researchers in industry, in the UWA Centre for Microscopy Characterisation and Analysis as well as other Australian and international Universities.

Research topics include *microbial ecology, restoration ecology, ecosystem processes, biogeochemistry, and microscopy*

We are seeking a highly motivated PhD student to work within an Australian Research Council and Alcoa funded project.

The project will provide an exceptional opportunity to train within the research and mining sectors & opportunity to travel to collaborating partners at the University of Wales, Bangor, UK.

Eligibility: Applicants must be an Australian or New Zealand citizen or permanent resident of Australia who have an Honours degree of 2A level or higher.

Stipend: \$26,669 pa tax-free.

Start date: **March 2009**
