

INDUSTRY FUNDED MSc SCHOLARSHIP AT VU

The scholarship will be valued at \$20,000.00 per annum. This project will commence in mid July 2009.

An industry funded scholarship for a student to undertake a MSc degree at Victoria University in the School of Engineering and Science (Faculty of Health, Engineering and Science) is available. The scholarship will be valued at \$20,000.00 per annum. This project will commence in mid July 2009.

Applicants should have a H1 Honours degree or a very high 2A, in the discipline of Chemistry or Food Science with a strong background in Analytical Chemistry, particularly HPLC, GLC and GLC/MS. The project is related to the analysis of starting materials for a series of quality attributes of new and finished food industry products.

The applicant will also have the opportunity to spend time at the industry partner's site located out of Victoria.

Applications close on Friday 3rd July 2009. Applications could contain a Curriculum Vitae and academic transcript.

Address applications to:

**Associate Professor Millikan
